

# Effectiveness and Safety of Oral Anticoagulants Among Nonvalvular Atrial Fibrillation Patients

The ARISTOPHANES Study

**Journal: Stroke**  
**IF: 10.1**

---

ارائه دهنده: محمد عاشوری  
استاد راهنما: دکتر سخاوتی مقدم

# Introduction

---

- Stroke prevention
- Oral anticoagulants (OAC)
- Vitamin K antagonists (VKA)
- non-VKA OAC (NOAC)

# Patient Selection

---

- Inclusion criteria
- Exclusion criteria

- 
- Outcome measures
  - Subgroup analysis

# Results

---

- Incidence rate of stroke/systemic emboli(SE) and major bleeding(MB)
- NOAC-Warfarin and NOAC-NOAC comparison
- Subgroup analyses

---

- Discussion

- Limitations

# The END

---

Thank you for your attention!
